

PRASHANTH S

ASPIRING AI / ML ENGINEER

Chennai, Tamil Nadu • prashanthasureshdevi@gmail.com • 9342349365
GitHub: github.com/PrashanthSureshDevi • LinkedIn: [linkedin.com/in/prashanth-s-665268422prashanthaiml](https://www.linkedin.com/in/prashanth-s-665268422prashanthaiml)

PROFESSIONAL PROFILE

Ambitious Artificial Intelligence & Machine Learning student with a strong interest in building intelligent, practical and user-focused applications. Developing a foundation across **Python, Machine Learning, LLMs, NLP, RAG, Generative AI** and frontend development. Actively strengthening problem-solving and algorithmic thinking through **Data Structures & Algorithms** and **LeetCode**. Eager to learn, collaborate and apply emerging AI technologies to real-world projects.

EDUCATION

B.E. Artificial Intelligence & Machine Learning Easwari Engineering College, Ramapuram	2026 – 2030 Undergraduate
--	-------------------------------------

TECHNICAL SKILLS

Programming Languages	Python • C • SQL
AI / Machine Learning	Artificial Intelligence • Machine Learning (Basic) • Deep Learning (Basic)
AI Technologies	NLP (Basic) • Generative AI • Large Language Models (LLMs) • RAG (Basic)
Data & Visualization	NumPy • Pandas • Matplotlib
Web Development	HTML • CSS • JavaScript
Tools & Problem Solving	Git • GitHub • Data Structures & Algorithms • LeetCode

PROJECTS

AI/ML Portfolio Website

Built a modern personal portfolio focused on an AI/ML engineering career. Showcases technical skills, AI interests, projects and professional profiles using HTML, CSS and JavaScript with responsive and modern UI interactions.

Python & DSA Practice

Developing problem-solving skills through Python-based DSA practice and LeetCode. Working with lists, strings, dictionaries, sets, recursion, nested loops, frequency counting and time/space complexity.

CERTIFICATION & LEARNING

AI Basics — Microsoft: Studying the fundamentals of Artificial Intelligence, including Machine Learning, Deep Learning, Natural Language Processing and AI algorithms.

CURRENT FOCUS

Machine Learning • Deep Learning • NLP • Generative AI • LLMs • RAG • Advanced Web Development • DSA & LeetCode

STRENGTHS

COMMUNICATION	LEADERSHIP	TEAMWORK	PROBLEM SOLVING
Clear & confident communication	Guiding and supporting teams	Collaborative mindset	Logical & analytical thinking

Career Goal: Building toward an AI/ML Engineer role focused on Machine Learning, LLM applications, NLP, RAG and Generative AI.
